MOHAMMED NUSAIF KP

SOFTWARE ENGINEER

PROFILE SUMMARY

Detail-oriented and results-driven professional with hands-on training and real-world experience in full-stack web development, software integration, and application optimization. Gained practical exposure to frontend and backend technologies, including **MERN stack (MongoDB, Express.js, React, Node.js), Angular, and .NET**. Experienced in designing, developing, and deploying scalable solutions, with additional skills in database management using **MySQL and MongoDB**. Familiar with Agile methodologies, version control, and collaborative development environments. Eager to contribute technical expertise to innovative projects while continuously learning and growing in a dynamic environment.

EXPERIENCE

Intern - Software Development
Aug 2025 - Present
Aspire IT Academy, Kochi

- Developed and maintained full-stack web applications using **.NET Core**, **Angular, and MySQL**, delivering scalable and high-performance solutions.
- Built responsive, reusable, and testable Angular components, ensuring a seamless user experience across devices and platforms.
- Integrated frontend (Angular) with backend (.NET Core APIs), enabling smooth data flow and robust application architecture.
- Designed and implemented RESTful APIs with .NET Core, optimized MySQL queries, and improved overall backend efficiency.

Business Development Associate
Nov 2024 - May 2025
Intellipaat, Bangalore, India

- Promoted and consulted on technical upskilling programs, helping clients choose career-oriented learning paths.
- Collaborated with teams to create effective sales strategies and increase conversions.
- Managed CRM systems to track pipelines and deliver accurate reports for decisions.
- Monitored market trends and competitors to adapt strategies and stay competitive.

Junior Full Stack Developer
May 2024 - Nov 2024
Reofex Technologies, Malappuram, India

- Refactored the existing project codebase from JavaScript to TypeScript, enhancing code quality and maintainability.
- Gained hands-on experience in VAST and VPAID ad-serving platforms, improving ad delivery and performance.
- Added new features to the ad player to improve functionality and user experience.
- Developed and tested responsive web interfaces using HTML, CSS, Bootstrap, and JavaScript, with Jest ensuring quality and early issue detection.

KEY SKILLS

- **Programming Languages: JavaScript | TypeScript | C# | C**
- **Frontend Technologies: HTML | CSS | Bootstrap | Tailwind CSS | React.js | Angular**
- **Backend Technologies: Node.js | Express.js | .NET**
- **Databases: MongoDB | MySQL**
- **Software Development: Full-Stack Development | RESTful API Design | SDLC | Agile Methodologies**
- **Testing: Jest | Unit Testing**
- **Version Control & Tools: Git | GitHub | VS Code**

SOFT SKILLS

- **Communication**
- **Self-learner**
- **Teamwork**
- **Organization**
- **Leadership**
- **Teamplayer**
- **Agile Methodologies**

Intern - Software Development

Dec 2023 - April 2024

Futura Labs LLP

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Designed and implemented RESTful APIs, optimized database queries and improved application efficiency.
- Developed responsive and user-friendly interfaces, ensuring a seamless user experience across devices and screen sizes.
- Collaborated with cross-functional teams to enhance teamwork and communication skills

PROJECTS

Apex Chrono - ECommerce Website

GitHub

- Developed a **full-stack e-commerce platform** with product management, variant handling, **secure authentication (JWT)**, shopping cart, checkout flow, payment integration (Razorpay), and order processing using **Angular and .NET Core.**
- Implemented advanced admin features, including product creation with multi-image upload, automatic image storage on the backend, variant-specific images, role-based access control, and dynamic product filtering with categories, brands, ratings, features, and price ranges.
- Built a responsive, production-ready frontend UI with Angular, featuring product listings, detailed view pages, cart syncing, order summary, shipping details, payment workflow, and real-time API integration for a smooth user experience.

Dream Airways

GitHub

- Developed a flight booking platform using **React, Bootstrap, and Node.js**, enabling users to search, filter, and book flights seamlessly.
- Integrated airport IATA codes and search functionality for accurate and user-friendly flight results.
- Implemented responsive design to ensure smooth performance across desktop and mobile devices.

Event Management System

GitHub

- Designed and implemented a fully-functional Event Management System using a modern **MERN stack with clean frontend (React.js) and RESTful backend (Node.js, Express.js) integration.**
- Employed JWT authentication for user sign-in and to safeguard sensitive actions and endpoints.
- Created intuitive user interfaces with React, supporting seamless browsing, event creation, and user registration.

DECLARATION

I hereby declare that the above written particulars are true and correct to the best of my knowledge and belief.

Mohammed Nusaif
